

Westside

We are now open!

To ensure safety for all we have installed the QLess virtual line system for in person appointments with Admissions, the Business Office, Financial Aid and Testing.

QLess technology provides an effortless way for students to quickly access the services they need without standing in long lines.

With QLess on campus, students are able to join a line using the campus website, text, mobile app, or an on-site station. Students choose the type of service they want and the system shares the expected wait time.

Go to this link on your phone, tablet or laptop
